Re your request for comments on the Proposed Interim Strategy on Terrorism:

1. It would have been useful if the memo had been formally coordinated with the DDA.
2. D/ODP has no problem with the figures contained herein. He did state that he would prefer if the software funds could be "committed" in FY-82 and obligated over a period of time.
3. We don't know of any space identified as 3GOC--see footnote 3 of attachment.
4. If EXDIR approves the request and considers it of the highest priority, DDA components will do their best to provide timely support.

MEMORANDUM FOR: Executive Director

VIA: Deputy Director for Intelligence
Deputy Director for OperationsFROM: [redacted]
Director of Global Issues, DDI

25X1

[redacted]
Chief, International Activities Division, DDO

25X1

SUBJECT: Proposed Interim Strategy on Terrorism

1. OGI and IAD recommend the following steps to enhance DI/DO cooperation on terrorism until such time as space becomes available for a full co-location of the Instability and Insurgency Center and the Counterterrorism Group and to better serve the terrorism data needs of the Intelligence Community.

- o Immediately rotate one DO and one DI person to the opposite terrorist component.
- o Immediately seek \$1.0 million in ADP related reserve release to begin software development for centralization of DI/DO data bases on terrorism (see attached for four-year ADP plan).
- o Immediately seek 2,400 square feet of Headquarters space to be fully equipped as a joint DO/DI mini-computer center by 1 October 1983.

On the ADP side, these steps would enable us by early FY84 to:

- o Integrate [redacted] systems.
- o Make them directly available through an interactive system to the rest of the Intelligence Community.
- o Allow additional data bases presently under development by the DI (attributes of 30 terrorist groups and government policies toward terrorist events) to be accessed directly by the DO and interested parts of the Intelligence Community.
- o Provide a real-time Commo link to offices involved in terrorist incident management.

25X1

This entire memorandum
is classified CONFIDENTIAL.

CONFIDENTIAL

SUBJECT: Proposed Interim Strategy on Terrorism

In the interim, [redacted] system will continue its direct service to the Intelligence Community while the DI will continue to fill requests for terrorist events information through ad hoc reports.

25X1
25X1

2. It is essential that the reserve release be obtained quickly and space for the mini-computer center be identified as soon as possible. Unless we receive the reserve release within the next few weeks, we will be unable to obligate the funds for software development. As for the mini-computer center, we estimate that it will take at least six months, and more likely one year, to prepare the area. At such time as full co-location takes place--either in Headquarters or elsewhere--the mini-computer center will be linked electronically to the units involved.

MEMORANDUM FOR: Comptroller

THROUGH: Deputy Director for Administration
Deputy Director for Operations
Deputy Director for Intelligence
Deputy Director for Science and Technology

FROM:

DDO/Chief, International Activities Division

25X1

SUBJECT: Reserve Release Request for Counterterrorism

REFERENCE: Counterterrorist Proposal to the Executive
Director, Dated 14 April 1982

1. Action Requested: This memorandum requests you to initiate action with the Office of Management and Budget for the release of \$4.000 million from the Reserve for Contingencies to fund an enhanced Agency-wide counterterrorism program.

2. Background: As you know, the President, his National Security Advisor, and the Secretary of State have all stressed the need to augment our efforts against terrorism. Under the direction of the Executive Director, the Agency directorates have combined to develop a plan to meet our responsibilities under NSDD #30. The \$4.000 million Reserve release will provide for a strong start this year on a program to:

- Combine the CIA's counterterrorism analysis and operations elements into a colocated center (\$850,000).
- Centralize and expand data processing files and equipment to better understand the dynamics of terrorism. This will be a multi-year effort designed to be fully operational by FY 84 (\$1,000,000).
- Increase electronic and human source collection against terrorist organizations (\$900,000).

25X1

S E C R E T

S E C R E T

-2-

- Improve technical capability to defend against terrorist attacks. Includes the creation of quick reaction teams to respond to terrorist incidents (\$1,125,000).
- Establish better interagency coordination to provide advanced warning of potential incidents and improve relations with friendly liaison services (\$40,000).
- Increase Agency capability to carry out covert action against terrorist groups (\$85,000).

25X1

3. We will attempt to reprogram the needed funds to continue this program in 1983--a preliminary estimate of the 1983 cost is \$4.000 million. The Agency's 1984 budget request will contain an initiative to carry the program forward.
